

Contents

1	Soybean Stink Bugs: Updates on Classification, Taxonomy, and Distribution	1
	Jocelia Grazia and Cristiano Feldens Schwertner	
2	Predatory Stink Bugs of Economic Importance as Biological Control Agents	29
	Ricardo Brugnera and Jocelia Grazia	
3	Life History Studies and Their Implications for Management of Stink Bugs	41
	Antônio Ricardo Panizzi and Tiago Lucini	
4	The Use of <i>Telenomus podisi</i> to Manage Stink Bugs on Soybean: The Example of Brazil	51
	Adeney Freitas Bueno, Weidson Plauter Sutil, Yelitza Coromoto Colmenarez, and Leonardo Roswadoski	
5	Augmentative Biological Control of Stink Bugs Using Entomopathogens in Brazil	65
	Rodrigo Mendes Antunes Maciel, Raiza Abati, Nédia de Castilhos Ghisi, Everton Ricardi Lozano, and Michele Potrich	
6	Conservation Biological Control as an Alternative to Reduce Stink Bugs Outbreaks	81
	María Fernanda Cingolani	
7	Botanical Insecticides as an Alternative to Control Stink Bugs in Agriculture	95
	Everton Ricardi Lozano, Michele Potrich, Lucas Battisti, and Raiza Abati	

8	The Use of RNAi Against Stink Bugs	117
	Grazielle Celeste Maktura, Giovanna Vieira Guidelli, Thiago Roncini Gomes da Costa, and Henrique Marques-Souza	
9	The CRISPR Technology to Manage Stink Bugs: Potential, Challenges and Major Benefits	169
	Renata Fuganti Pagliarini, Mayla Daiane Correa Molinari, Alexandre Lima Nepomuceno, and Adeney Freitas Bueno	
10	Host Plant Resistance to Manage Pest Stink Bugs: The Block Technology on Soybean	181
	Tiago Lucini and Antônio Ricardo Panizzi	
11	The Present and Future of Chemical Control to Manage Stink Bugs in Brazil	199
	Renato Carvalho, Daniela Okuma, Oderlei Bernardi, and Ralf Nauen	
12	Application Technologies for Stink Bug Management in Different Cropping Systems	213
	Ulisses Rocha Antuniassi, Walter Boller, Clerison Regis Perini, Glauber Renato Sturmer, Juliano de Bastos Pazini, Vinadio Lucas Béga, Ivair Valmorbida, and Orcial Ceolin Bortolotto	
13	Insecticide Resistance Management of Stink Bugs	241
	Daniel Ricardo Sosa-Gómez and Oderlei Bernardi	
14	Case Study 1: <i>Euschistus heros</i> (F.) on Soybean in Brazil	255
	Adeney Freitas Bueno, Antônio Ricardo Panizzi, and Weidson Plauter Sutil	
15	Case Study 2: <i>Halyomorpha halys</i> (Stål) in Europe	271
	Lara Maistrello	
16	Case Study 3: Current Pest Status and Management of the Invasive Brown Marmorated Stink Bug in the USA	361
	Laura J. Nixon, Anne L. Nielsen, and Tracy C. Leskey	
17	Perspectives on Pest Stink Bugs Research and Management in Agriculture	383
	Adeney Freitas Bueno and Antônio Ricardo Panizzi
