

CONTENTS

Preface	9
List of Abbreviations	11
1 Introduction and Basic Theory of Remote Sensing	15
1.1 History of Remote Sensing	16
1.2 Basic Concepts of Remote Sensing	17
1.2.1 The Electromagnetic Spectrum	17
1.2.2 Radiation Laws	20
1.2.3 Interactions with the Atmosphere	22
1.2.4 Interaction of Radiation with Matter	24
1.3 Optical and Thermal Properties of Surfaces	25
1.4 Principles of Airborne Scanning	29
2 Hyperspectral Data	37
2.1 Characteristics of Hyperspectral Data	37
2.2 Overview of Airborne Hyperspectral Sensors	38
2.3 Basic Pre-processing of Hyperspectral Data	40
2.3.1 Radiometric Calibration	40
2.3.2 Atmospheric Corrections	43
2.3.3 Geometric Pre-processing	46
2.3.4 Quality Assessment	48
3 Thermal Data	51
3.1 Thermal Data Characteristics	52
3.1.1 Properties Determining the Thermal Radiation of an Object	52

3.1.2	Surface Thermal Behaviour as a Result of Energy Transformations	53
3.1.3	Radiative Transfer Equation	55
3.2	Overview of Airborne Thermal Instruments	56
3.3	Thermal Data Corrections and Calibrations	57
3.3.1	Radiometric Calibration	58
3.3.2	Atmospheric Corrections	60
4	Aerial and Terrestrial Laser Scanning	63
4.1	Aerial Laser Scanning	64
4.1.1	Principle of ALS	64
4.1.2	Scanning Parameters and Properties of ALS Systems	65
4.1.3	The Scanning Accuracy	67
4.2	Overview of Aerial Laser Scanners	67
4.3	Terrestrial Laser Scanning	68
4.4	Processing of Aerial Laser Scanning Data	69
4.4.1	Calibration	70
4.4.2	Strip Adjustment	71
4.4.3	Filtering and Classification	71
4.4.4	Application Specific Processing Techniques	71
4.5	Digital Elevation Model and Its Accuracy	73
4.5.1	Definition of the Terms	73
4.5.2	DEMs in the Czech Republic	73
4.5.3	Accuracy Assessment of DEM	73
5	Assessment of Water Quality	75
5.1	Introduction	75
5.2	Material and Methods	77
5.2.1	Study Area	77
5.2.2	Field Measurements of Water Quality	77
5.2.3	Spectral Data	78
5.2.4	Mapping of Phytoplankton Distribution	79
5.3	Results and Discussion	80
5.3.1	Spectral Differences of Water Samples with Different Cyanobacteria and Algae Concentration Measured in Laboratory	80
5.3.2	Spatial Distribution of Algae/Cyanobacteria in the Brno Reservoir	81
5.4	Conclusions	83
6	Mapping of Overburden Substrates for Mine Site Re-cultivation	85
6.1	Introduction	85
6.2	Material and Methods	87

6.2.1	Study Area	87
6.2.2	Laboratory Chemical and Ecotoxicological Characterization of Substrates	88
6.2.3	Spectral Data	88
6.2.4	Mapping of Clay Substrate Composition	89
6.2.5	Fossil Organic Matter Characterization Using Near Infrared Spectroscopy	89
6.3	Results and Discussion	90
6.3.1	Spectral Signatures of Different Clay Substrates Measured in a Lab and Their Relation to Chemistry and Toxicity . .	90
6.3.2	Spatial Distribution of Clay Substrates Using AISA Eagle Images and Their Use for Prediction of Toxicity	90
6.3.3	Can Near Infrared Spectroscopy Distinguish Between Re- cent and Fossil Organic Matter in Mine Soils?	93
6.4	Conclusions	94
7	Application of Remote Sensing in Precision Agriculture	97
7.1	Mapping of Spatial Variability of Soil Properties Within the Fields	99
7.2	Assessment of Crop Variability by Remote Sensing	101
7.3	Case Study	104
7.3.1	Data and Methods	105
7.3.2	Results and Discussion	106
7.4	Conclusions	109
8	Chlorophyll mapping of coniferous forests	111
8.1	Introduction	111
8.2	RS-based Methods of Chlorophyll Estimation: A Mini-Review . . .	112
8.3	Chlorophyll Content Retrieval of Norway Spruce	117
8.3.1	Experimental Test Site and Ground Measurements	117
8.3.2	Remote Sensing Data	118
8.3.3	Radiative Transfer Modelling	119
8.3.4	Retrieval Methods	120
8.3.5	Results and Discussion	121
8.4	Conclusions	125
9	Applications of Airborne Laser Scanning in Forestry	127
9.1	Introduction	127
9.2	Forest Segmentation and Classification	129
9.3	Individual Tree Detection and Delineation	131
9.4	Calculation of Individual Tree Parameters from ALS	133
9.5	Outlook	137

10 Surface Temperature Regime of the Landscape	139
10.1 Introduction	139
10.2 Aims	141
10.3 Methods	142
10.3.1 Site Description	142
10.3.2 Remote Sensing Measurement of Surface Temperature T_s .	142
10.3.3 Meteorological Data	143
10.3.4 Data Processing	143
10.4 Results and Discussion	144
References	151
