

# Contents

<i>Esposito, A.</i> Vowels in stop context: Coarticulation effects and acoustic changes .....	9
<i>Drábková, J.</i> Voice operated testing of knowledge built in the Lotos system .....	19
<i>Nejedlová, D.; Žďánský, J.</i> Initial research in topic-dependent language model for Czech broadcast news transcription .....	24
<i>Silovský, J.; Červa, P.; Žďánský, J.</i> Text-independent speaker verification supported by ASR .....	31
<i>Pollák, P.; Volín, J.; Skarnitzl, R.</i> Accuracy analysis of phonetic segmentation with multiple word-pronunciation variants and segmentation tool in Praat environment .....	37
<i>Rajnoha, J.; Pollák, P.</i> Voice activity detection in small vocabulary speech recognition .....	43
<i>Hedbávná, B.</i> Intra-speaker and inter-speaker vowel variability .....	49
<i>Machač, P.; Skarnitzl, R.; Volín, J.</i> Inter-labeller agreement in segmental boundary placement .....	57
<i>Volín, J.</i> Data volume requirements for reliable F0 normalization .....	62
<i>Podlipský, V. J.; Chládková, K.</i> Vowel duration variation induced by coda consonant voicing and perceptual short/long vowel categorization in Czech .....	68
<i>Hoffmann, R.; Kordon, U.</i> Adaptation of speech analysis systems to different scenarios .....	75
<i>Richter, D.; Fehér, T.</i> Adaptive two-channel microphone and multichannel source separation with Independent Component Analysis .....	79
<i>Čermák, J.</i> Blind source separation using fuzzy masking .....	83
<i>Eichler, M.; Lacroix, A.</i> A realtime multichannel environment for microphone arrays .....	88
<i>Sysel, P.; Smékal, Z.</i> Power spectral density noise estimation using wavelet transform in spectral domain .....	98
<i>Vrána, J.</i> Design of unconventional quadrature mirror filter bank by using correlation .....	106
<i>Vondra, M.</i> Speech enhancement using cepstral vocoder .....	110
<i>Nouza, J.; Vích, R.; Vondra, M.</i> Can ASR be used for evaluating speech quality? .....	115

<i>Koula, I.; Heralt, J.</i> Objective comparison of efficiency of one-channel noise cancellation algorithms .....	122
<i>Zlatník, P.; Čmejla, R.</i> Assessment of disordered speech using several speech characteristics .....	128
<i>Kroul, M.; Nouza, J.</i> Voice anonymization via Speech-to-Text and Text-to-Speech conversion .....	134
<i>Schnell, K.</i> Voiced excitation model for parametric synthesis based on residual signals .....	138
<i>Horák, P.</i> Construction of suitable prosody models for dialog systems .....	142
<i>Přibil, J.; Přibilová, A.</i> Storytelling voice conversion for TTS system with cepstral description .....	148
<i>Kala, J.; Matoušek, J.</i> Duration modelling in Czech TTS system using classification and regression trees .....	154
<i>Tihelka, D.</i> Corpus-based Approach to unit selection speech unit inventory reduction in ARTIC TTS .....	160
<i>Tychtl, Z.</i> Lemma based indexing in Czech LVCSR based keyword spotting .....	168
<i>Chaloupka, J.</i> New version of Czech computerized talking head .....	173
<i>Chaloupka, Z.; Horák, P.</i> Current state of the Czech TTS system Epos .....	177
