

BRIEF CONTENTS

A Note to the Student: Why We Wrote This Book	xv	
And Now, About the Eighth Edition . . .	xvii	
Sage Vantage Features	xxi	
Acknowledgments	xxv	
About the Authors	xxvii	
PART I	YIPPEE! I'M IN STATISTICS	1
Chapter 1	Statistics or Sadistics? It's Up to You	5
Chapter 2	What Do Your Data Look Like?: Summarizing and Picturing Distributions	25
Chapter 3	Computing Correlation Coefficients: Ice Cream and Crime	51
Chapter 4	Reliability and Validity: Tell the Truth, Precisely the Truth	75
PART II	TAKING CHANCES FOR FUN AND PROFIT	95
Chapter 5	The Normal Curve: It's Shaped Like a Bell and It's Everywhere!	97
Chapter 6	Hypotheticals and You: Making Guesses	117
Chapter 7	Significance: Not Everything That Can Be Counted Counts	131
PART III	SIGNIFICANTLY DIFFERENT: USING INFERENTIAL STATISTICS	149
Chapter 8	Single Samples: One Group All Alone	151
Chapter 9	t (ea) for Two: Comparing Two Means	165
Chapter 10	More Than Two Groups?: Analysis of Variance to the Rescue	187
Chapter 11	Two (or More) ANOVAs in One: Factorial Analysis of Variance	203
Chapter 12	Correlation Coefficients and Regression: Can You Relate?	219

PART IV	MORE STATISTICS! MORE TOOLS! MORE FUN!	241
Chapter 13	Chi-Square and Some Other Nonparametric Tests: What to Do When You're Not Normal	243
Chapter 14	Some Other (Important) Statistical Stuff You Should Know About	261
	Appendices: Information Never Ends!	271
	Appendix A: SPSS Statistics in Less Than 30 Minutes	273
	Appendix B: Tables	289
	Appendix C: Data Sets	305
	Appendix D: Answers to Practice Questions	317
	Appendix E: Math: Just the Basics	325
	Appendix F: The 10 Commandments of Data Collection	329
	Appendix G: The Reward: The Brownie Recipe	331
	Glossary	333
	Index	339
