is a great and transboundary technology and very popular among young nuclear scientists and very promising for the future of nuclear power engineering.

We hope that this meeting will contribute to extend personal contacts and further technical discussion of colleagues from:

- Institute of Inorganic Chemistry, Slovak Academy of Sciences, Slovakia
- Department of Nuclear Physics and Technology, Faculty of Electrical Engineering and Information Technology, Slovak University of Technology, Slovakia
- Department of Nuclear Design and Plant Management, Nuclear Power Plant Research Institute Trnava JRC, Slovakia
- Department of Nuclear Reactors, Faculty of Nuclear Science and Physical Engineering, Czech Technical University in Prague, Czech Republic
- Department of Fluoride Chemistry, Nuclear Research Institute Řež a.s., Czech Republic
- Waste and Engineered Barrier Characterization Department, Nuclear Research Institute Řež a.s., Czech Republic
- Nuclear Power Plant Dukovany, Czech Republic
- Nuclear Power Plant Temelín, Czech Republic
- Institute of Power Engineering, Faculty of Mechanical Engineering, Brno University of Technology

Ladies and gentlemen, We wish you meeting in the form success and have good afternoon to

Thank you
