

Contents

Introduction.....	6
Odra Project	7
Odra Project II	8
Odra Project III	10
Assessment of development trends in municipal wastewater treatment plants (WWTP) in the Odra River basin	11
Semipermeable membranes.....	12
Mercury releases in the North Moravian part of the Odra River basin.....	13
Biological quality situation	13
Monitored parameters.....	14
Microbial pollution of surface waters	14
Trophic status of surface waters.....	14
Macrozoobenthos assessment	15
Research of ichthyofauna composition and situation	16
Research of macrophyte composition and situation.....	17
Toxic risk of polluted surface waters.....	18
Toxicity of polluted sediments.....	18
Special toxicological assessment of wastewaters.....	20
Identification of emergency situations.....	21
Results of monitoring and the summary assessment.....	22
Project co-research.....	26
Hydrological characteristics.....	26
Assessment of the floating matter mode	26
Monitoring of underground waters.....	27
Identification of anthropogenic pressures in the Czech part of the international Odra River basin district.....	28
<i>Area I</i>	29
Sources of polluted surface waters (Ing. Martin Durčák).....	29
Point sources of pollution.....	30
Areal and diffusion pollution sources	35
Presence of modern pesticides in surface waters in the Odra River basin (Ing. Jiří Šajer, Mgr. Hana Sezimová, Ph.D.)	41
<i>Area II</i>	49
Microbial pollution of surface waters in the Odra River basin – Microbial pollution of wastewaters released from municipal treatment plants (Mgr. Jana Badurová).....	49
Introduction.....	49
Methodology.....	50

Results.....	51
Results of chemical indicators determined for released municipal waters	54
Discussion.....	54
Conclusions.....	56
Impact of anthropogenic activities on ecotoxicological characteristics of surface water and sediment pollution (RNDr. Přemysl Soldán, Ph.D.)	57
Introduction.....	57
Used methods.....	57
Results.....	64
Conclusions.....	67
Ichthyofauna in the Odra River basin in Moravia and Silesia (Doc. RNDr. Bohumír Lojkásek, CSc.)	67
Conditions for the development of fish populations	67
Current fish population species composition	68
Ichthyological specifications of main watercourses within the Odra River basin administrative area.....	72
Estimation of future development in living conditions for ichthyofauna in the Odra River drainage basin	80
Conclusion.....	82
Fish as bio-indicators of the effect of exposure to environmental stressors (Doc. Ing. Jiří Řehulka, CSc.)	83
Introduction.....	83
Material and methods.....	84
<i>Fish</i>	84
<i>Blood sampling</i>	84
Results and discussion	84
Conclusions.....	85
<i>Area III</i>	89
Pollution caused by <i>Caprinus carpio</i> originating in different breeding conditions (Ing. Jana Máchová)	89
Introduction.....	90
Materials and the methodology.....	90
Results and the discussion	93
Conclusions.....	96
Acknowledgements.....	96
Pond influences on water quality in the receiving streams (Mgr. Tomáš Luzar, Mgr. Hana Nowaková)	97
Introduction.....	97
Methods.....	98
Results.....	99

Summary.....	110
Bibliography	111
List of pictures.....	119
List of tables.....	125
List of authors.....	127
