<i>Preface</i>	vii
<i>Acknowledgments</i>	xi
<i>Note to the Reader</i>	xiii
<i>List of Contributors</i>	xv

Volume 1

1. Galls and Gall-inducing Arthropods: An Overview of their Biology, Ecology, and Evolution	1
<i>Anantanarayanan Raman, Carl W. Schaefer, and Toni M. Withers</i>	
2. Biology of Gall-inducing Acari	35
<i>George N. Oldfield</i>	
3. Gall-inducing Thrips: An Evolutionary Perspective	59
<i>Laurence A. Mound, and David C. Morris</i>	
4. Gall-inducing Aphids: Biology, Ecology, and Evolution	73
<i>David Wool</i>	
5. Gall-inducing Whiteflies (Hemiptera: Aleyrodidae)	133
<i>David N. Byrne</i>	
6. Biology, Ecology, and Evolution of Gall-inducing Psyllids (Hemiptera: Psylloidea)	143
<i>Daniel Burckhardt</i>	
7. Gall-inducing Scale Insects (Hemiptera: Sternorrhyncha: Coccoidea)	159
<i>Penny J. Gullan, Douglass R. Miller, and Lyn G. Cook</i>	
8. Gall-inducing Heteropterans (Hemiptera)	231
<i>Carl W. Schaefer</i>	
9. Gall-inducing Coleoptera	239
<i>Boris A. Korotyaev, Alexander S. Konstantinov, Steven W. Lingafelter, Mikhail Yu. Mandelshtam, and Mark G. Volkovitsh</i>	
10. Biology and Ecology of Gall-inducing Cecidomyiidae (Diptera)	273
<i>Junichi Yukawa, and Odette Rohfritsch</i>	
11. Phylogeny of Gall Midges (Cecidomyiidae)	305
<i>Hans C. Roskam</i>	

- | | |
|---|-----|
| 12. Phylogenetic Relationships, Ecology, and Ecological Genetics of Cecidogenous Tephritidae
<i>Valery Korneyev, Helmut Zwölfer, and Alfred Seitz</i> | 321 |
| 13. The Biology, Ecology, and Evolution of Shoot Flies (Diptera: Chloropidae)
<i>Luc De Bruyn</i> | 373 |
| 14. Dipteran Leaf Miners
<i>Martin Dempewolf</i> | 407 |

Volume 2

- | | |
|--|-----|
| 15. Gall-inducing Lepidoptera
<i>William E. Miller</i> | 431 |
| 16. Biology, Ecology, and Evolution of Gall-inducing Sawflies (Hymenoptera: Tenthredinidae and Xyelidae)
<i>Heikki Roininen, Tommi Nyman, and Alexey Zinovjev</i> | 467 |
| 17. Biology and Evolution of Braconid Gall Wasps (Hymenoptera)
<i>Robert A. Wharton, and Paul E. Hanson</i> | 495 |
| 18. Biology of Gall Inducers and Evolution of Gall Induction in Chalcidoidea (Hymenoptera: Eulophidae, Eurytomidae, Pteromalidae, Tanaostigmatidae, Torymidae)
<i>John La Salle</i> | 507 |
| 19. Biology, Ecology, and Evolution of Fig-pollinating Wasps (Chalcidoidea, Agaonidae)
<i>Finn Kjellberg, Emmanuelle Jouselin, Martine Hossaert-McKey, and Jean-Yves Rasplus</i> | 539 |
| 20. Biology, Ecology, and Evolution of Gall-inducing Cynipidae
<i>György Csóka, Graham N. Stone, and George Melika</i> | 573 |
| 21. Gall Flies (Diptera: Fergusoninidae) on Myrtaceae: A Mutualistic Association between Flies and Nematodes
<i>Gary S. Taylor, Elise R. Head, and Kerrie A. Davies</i> | 643 |
| 22. Diversity of Gall-inducing Arthropods of Costa Rica
<i>Paul E. Hanson, and Jorge Gómez-Laurito</i> | 673 |
| 23. Habitat-driven Effects on the Diversity of Gall-inducing Insects in the Brazilian Cerrado
<i>Geraldo Wilson Fernandes, Silmary J. Gonçalves-Alvim, and Marco A. Alves Carneiro</i> | 693 |
| 24. Gall-inducing Arthropods Used in the Biological Control of Weeds
<i>R. Muniappan, and Rachel E. McFadyen</i> | 709 |

25. Dual Aseptic Culture of Gall-inducing Arthropods and their Host Plants	731
<i>Rolf Beiderbeck</i>	
26. Galls and Gall-inducing Arthropods: Ecological Issues and Evolutionary Problems	761
<i>Carl W. Schaefer, Anantanarayanan Raman, and Toni M. Withers</i>	
<i>Index</i>	767
