1 What Is Psychiatry?	1
Our psychiatric lives	1
Everyone's little helpers	3
Many psychiatries	5
Psychiatry defines the boundaries	6
What mental disorder <i>is</i>	10
Psychiatry as a political science	14
The politics of psychiatry	16
Critical psychiatry today	19
Onwards . . .	21
2 Is There Really an 'Epidemic' of Mental Disorder?	25
'The burden of brain disorders'	27
Counting the costs	28
Burden today	33
From 'mental' disorders to 'brain disorders'	36
So is there an 'epidemic'?	38
3 Is It All the Fault of Neoliberal Capitalism?	41
Our unhappy present	45
The factory of unhappiness	50
Social capital	53
Loneliness	57
Stress	60
So is it all the fault of neoliberal capitalism?	64

4	If Mental Disorders Exist, How Shall We Know Them?	67
	Diagnosis as a social phenomenon	72
	Solution one: Define the phenotype	76
	Solution two: Find the biomarker	82
	Solution three: Straight to the brain	85
	Solution four: Beyond diagnosis	89
	From diagnosis to formulation	91
5	Are Mental Disorders 'Brain Disorders'?	94
	Proven by psychopharmaceuticals?	99
	Discovered in the genes?	102
	Visible in the brain images?	108
	So are mental disorders brain disorders?	111
6	Does Psychopharmacology Have a Future?	116
	How did we get here?	118
	The drugs don't do nothing, but . . .	122
	The pipeline is empty!	129
	Beyond psychopharmacology?	131
7	Who Needs Global Mental Health?	134
	Grand challenge: No health without mental health?	136
	The debate	141
	Beyond the conflict?	143
	All our futures?	147
8	Experts By Experience?	150
	Mental patient movements	153
	From 'on our own' to 'nothing about us without us'	157
	The politics of recovery	161
	A new epistemology of mental distress	165
	Have we moved beyond the monologue?	169
9	Is Another Psychiatry Possible?	173
	Manifestoes for the future	173
	Seven answers to seven hard questions	181
	Another psychiatry, another biopolitics	187
