---

Preface • vii

Acknowledgements • ix

Contributors • x

1. Crustaceans as Prey in Aquatic and Terrestrial Food Webs • 1  
*Martin Thiel and Lars Gutow*
2. Crustaceans as Herbivores, Predators, and General Consumers • 34  
*Rochelle D. Seitz, Romuald N. Lipcius, Jainita Patel, and Gina M. Ralph*
3. Vultures of the Sea and Shredders in the Woods: Crustaceans as Detritivores and Scavengers • 68  
*Jonas C. Geburzi and Martin Zimmer*
4. The Importance of Marine Benthic Crustaceans as Bioturbators, Habitat Modifiers, and Ecosystem Function Regulators • 100  
*Hazel R. Needham, Michael Townsend, and Andrew M. Lohrer*
5. Crustaceans as Intermediate Hosts in the Life Cycles of Parasites • 126  
*Robert Poulin*
6. Competition in Crustaceans: Patterns, Mechanisms, and Consequences • 146  
*Stuart R. Jenkins*
7. The Ecological Importance of Crustacean Diversity • 171  
*Rebecca J. Best and Moritz D. Lürig*

8. Crustacean Responses to Habitat Loss, Fragmentation, and Modification • 195  
*Kevin Hovel*
9. Impacts of Ocean Change on Crustaceans • 224  
*Christian Pansch, Marian Hu, Dirk Weihrauch, and Christian Buschbaum*
10. Effects of Anthropogenic Stressors on Crustacean Zooplankton in Lakes • 253  
*Dietmar Straile*
11. Impacts of Contaminants on Crustaceans in the Field • 278  
*Alex T. Ford, and Thomas Knigge*
12. Conservation Genetics of Crustaceans • 309  
*Keith A. Crandall*
13. Causes and Consequences of Invasions by Nonnative Crustaceans • 335  
*Edwin Grosholz*
14. Habitat-Based Conservation of Anchialine Cave Crustaceans • 363  
*Thomas M. Iliffe, Alejandro Martínez, Fernando Alvarez, and William F. Humphreys*
15. Recovery of Crustacean Populations in Protected Areas • 402  
*Even Moland, Raquel Goñi, Benjamin J. Hanns, and Nick T. Shears*
16. Crustaceans in a Legislative Framework • 440  
*D. Christopher Rogers*
17. Crustaceans in Society: The Media, Popular Culture, and Public Awareness • 466  
*Christopher B. Boyko, and Shane T. Ahyong*
