<i>About the editors</i>	xvii
<i>List of contributors</i>	xix
1 Introduction to sustainable urban transport <i>Lucy Budd, Stephen Ison and Maria Attard</i>	1
2 Rapidly growing cities and transport challenges: the search for sustainable solutions <i>Andrew R. Goetz</i>	11
PART I	
Urban transport sectors	25
3 Short-distance travel in urban areas <i>Karyn Scerri and Maria Attard</i>	27
4 Cycling and micromobility <i>Ralph Buehler and Vahid Bakhshi</i>	37
5 Children's travel and sustainability <i>E. Owen D. Waygood, Maria Johansson, and Anna Litsmark</i>	50
6 Reducing universities' carbon emissions from urban business travel <i>Tyler Breeze, Ian D. Williams, Ben Anderson and Rahul Jain</i>	63

- 7 Mobility and health operations from a collaborative perspective 85
Sandra Wegener, Juliane Stark, Yusak Susilo, and Laura Kermer
- 8 Transport for retail in urban areas 97
Joris Beckers, Adrien Beziat, Johan Hagberg, and Miguel Jaller
- 9 The online check-out for local authorities: a toolkit for sustainable e-commerce deliveries 113
Koen Mommens, Tanguy Baiwir, Johan Peeters, Bruno Bianchet and Sabine Limbourg
- 10 Commuting: the rise of urban air mobility? 126
Julia Schaumeier and Anna Straubinger
- 11 Sustainable urban tourism: a comparative international review 138
Luca Zamparini

PART II

Challenges, issues and impacts

- 12 Environmental impacts 153
Genevieve Giuliano and Ahsan Habib Joy
- 13 The dynamics of urban congestion in European cities: was COVID-19 a turning point? 167
Daniel Albalade and Xavier Fageda
- 14 Urban transport and human health 182
Charles Musselwhite
- 15 Transit safety 195
Vania Ceccato
- 16 Traveller and driver safety in an urban context 207
George Yannis and Eleonora Papadimitriou
- 17 Trends of urban mobility systems in the Global South: the case of African cities 228
Nora Marei, Olivier Ninot, Solène Baffi and Jérôme Lombard
- 18 Destinations unknown: equity and justice debates in sustainable transportation 242
Matthew Palm

PART III		
Technical, social and economic solutions		255
19	Fare-free public transport: from policy fringes to an established practice <i>Wojciech Kębłowski, Monika Maciejewska, Merlin Gillard, Kobe Boussauw and Veronique Van Acker</i>	257
20	Taxes, levies and subsidies <i>John Preston</i>	268
21	Governance – the role of public and private actors in sustainable urban transport systems <i>Lisa Hansson and Johan Holmgren</i>	281
22	Unleashing the potential: exploring user choices and societal implications of MaaS <i>Chinh Ho and Toshiyuki Yamamoto</i>	293
23	Navigating low demand landscapes: a comprehensive exploration of sustainable transportation strategies <i>Cristina Bircu, Federico Cavallaro and Silvio Nocera</i>	306
24	Commuting mode choice and work from home in the later stages of COVID-19: implications for sustainability <i>David A. Hensher, Matthew J. Beck, Camila Balbontin, and John D. Nelson</i>	320
25	Differentiated travel demand management based on travellers' heterogeneous preference: a case study of Beijing subway peak-avoidance policy <i>Yacan Wang, Yu Wang, Kexin Geng, and Zhiyuan Liang</i>	334
26	Analysing the effectiveness of urban transport interventions using sustainability indicators <i>Hemanthini Allirani and Ashish Verma</i>	346
27	The role of renewable energy to promote future electric transport and power systems <i>Omkar Parishwad, Arsalan Najafi, Xiaohan Liu, and Kun Gao</i>	361
28	Automation and sustainable urban transport <i>Alexandros Nikitas</i>	374
