

Table of contents

About the author.....	4
Introduction.....	5
1. Theoretical background.....	6
2. SO-HALA effects in NMR.....	7
2.1 SO-HALA and Electronic Configuration of Heavy Atoms: The Lone-Pair Rule.....	8
2.2 High-Frequency Chemical Shifts in Thallium(I) and Lead(II) Compounds.....	13
2.3 The Heavy Atom-Light Atom Bond: Covalency and Trans Effect.....	14
2.4 "Through Space" Relativistic Effects.....	15
2.5 Further Applications.....	16
3. Beyond NMR.....	17
Summary and outlook.....	18
References.....	19
Abstract.....	23
Abstrakt.....	23
