Guided tour

1. THE ROLE OF MARKETING RESEARCH AND CUSTOMER INFORMATION IN DECISION-MAKING 2

What you will learn 3 Keywords 3

Introduction 3

The marketing concept and the need for marketing information 4

Turning information into customer insight 6

The information explosion and big data 9

An integrated approach 10

What is marketing research? 12

What are customer databases? 13

What is user-generated content? 16

The role of artificial intelligence 17

Maintaining the distinction between marketing research and direct marketing 18

The marketing research and database industries 19

The professional bodies and associations in the marketing research industry 22

Summary 25 Review questions 25 Additional reading 26

2. THE MARKETING RESEARCH PROCESS 28

What you will learn 29 Keywords 30

Introduction 30

Stage 1: identification of problems and opportunities 30

Stage 2: formulation of research needs/research brief 33

Stage 3a: selection of research provider/agency 38

The role of artificial intelligence with the marketing research proposal 48

Stage 3b: creation of research design/choice of research method 49

Stage 4: collection of secondary data	54
Stage 5: collection of primary data	54
Stage 6: analysis of data	55
Stage 7: preparation and presentation of research findings and recommendations	56
Managing the client/agency relationship	56
Ethics in marketing research	56
Summary 62 Review questions 62 Additional reading 63	
3. SECONDARY DATA, CUSTOMER DATABASES AND BIG DATA ANALYTICS	64
What you will learn 65 Keywords 65	
Introduction	65
The value of secondary data	66
Sources of secondary data	71
The customer database	72
Using databases for marketing intelligence	80
Database software	88
Big data analytics	89
The role of artificial intelligence with datasets	90
External secondary information	91
Summary 97 Review questions 97 Additional reading 98	
4. COLLECTING OBSERVATION DATA AND SOCIAL MEDIA LISTENING	100
What you will learn 101 Keywords 101	
Introduction	101
What is observation research?	102
Categories of observation	104
Specific observation methods	106
The role of artificial intelligence in social media listening	120
Netnography	121
Ethical issues in observation research	122
Summary 123 Review questions 124 Additional reading 124	

5. COLLECTING QUALITATIVE DATA	126
What you will learn 127 Keywords 128	
Introduction	128
What is qualitative research?	128
Types of research most suited to qualitative research	129
Forms of qualitative research	132
Group discussions/focus groups	140
Projective techniques	149
Depth interviews versus group discussions	154
Technological developments in qualitative research	155
The role of artificial intelligence in group discussions	157
Summary 158 Review questions 158 Additional reading 159	
6. COLLECTING QUANTITATIVE DATA	160
What you will learn 161 Keywords 161	
Introduction	162
What is quantitative research?	162
Interviewer-administered methods	164
Telephone interviewing	168
Self-administered surveys	171
Selecting survey methods	178
Quantitative experimentation methods	187
Virtual test markets	193
The role of artificial intelligence in the collection of quantitative data	193
Summary 195 Review questions 195 Additional reading 196	
7. DESIGNING QUESTIONNAIRES	198
What you will learn 199 Keywords 200	
Introduction	200
The questionnaire design process	201

Step 1: develop question topics	202
Step 2: select question and response formats	204
Step 3: select wording	226
Step 4: determine sequence	230
Step 5: design layout and appearance	231
Step 6: pilot test	236
Step 7: undertake survey	237
The role of artificial intelligence in questionnaire design	237
Summary 238 Review questions 238 Additional reading 239	238
8. SAMPLING METHODS	240
What you will learn 241 Keywords 242	241
Introduction	242
The sampling process	243
Step 1: define the population of interest	243
Step 2: determine whether to sample or census	244
Step 3: select the sampling frame	245
Step 4: choose a sampling method	248
Step 5: determine sample size	260
Step 6: implement the sampling procedure	266
The role of artificial intelligence in sampling	272
Summary 273 Review questions 273 Additional reading 274	273
9. ANALYSING QUALITATIVE DATA	276
What you will learn 277 Keywords 277	277
Introduction	277
Analysis of qualitative data	278
Interpreting the data	286
Grounded theory: an academic approach	288

The role of artificial intelligence in qualitative analysis	290
Summary 291 Review questions 291 Additional reading 291	

10. ANALYSING QUANTITATIVE DATA **294**

What you will learn 295 Keywords 295	
Introduction	296
Coding	296
Data entry	298
Tabulation and statistical analysis	298
Statistical significance	304
Testing goodness of fit: chi-square	308
Hypotheses about means and proportions	310
Analysis of variance	313
Measuring relationships: correlation and regression	315
Multivariate data analysis	323
The role of artificial intelligence in quantitative analysis	331
Summary 332 Review questions 332 Additional reading 333	

11. PRESENTING THE RESEARCH RESULTS **334**

What you will learn 335 Keywords 335	
Introduction	335
Understanding the audience	336
Common dangers in the reporting and presentation of results	338
The marketing research report format	339
The oral presentation format	342
Delivering remote presentations	347
Data visualization	348
Delivering customer insight through EFM	355
The role of artificial intelligence in communicating research results	356
Summary 357 Review questions 357 Additional reading 358 Useful websites 358	

Marketing research in action: case histories	360
Case 1: McDonald's – the role of customer insight	361
Case 2: Visa – researching behaviour and attitudes	364
Case 3: Disney – researching children	367
Case 4: Transport for London – using data to improve the service	370
Case 5: Alibaba – a growing data warehouse	374
Case 6: Royal National Institute for the Blind – researching experiences	377
Case 7: Vodafone – telephone insight	381
Case 8: Ascend West and Central Africa Programme – research in developing countries	384
Case 9: Macmillan Cancer Support – advertising research	386
Case 10: Maple Leaf Foods, Canada – researching sustainable messaging	389
Appendix	392
Glossary	397
Index	414
